

# Introducing

# Steri Pure

world's most advanced  
Portable water Purifier

## Pure, Safe & Tasty water

**Quality you can feel  
Difference you can taste  
Safety you can trust**

-  Advanced water purifier with microprocessor and UV technology.
-  Destroys the microbes completely and purifies the water at molecular level.
-  Water quality is measured by sensor and controlled by microprocessor.
-  Water purifier is compact, sleek, handy and portable.
-  No chemicals added to purify the water.
-  Can be Placed conveniently on a dining table and in a refrigerator.

  
A Member of  
Water Quality Association - USA

An instant Health Care Water purifier with portable option by Advanced USA Technology

The **steri pure** systems are designed with state of the art technology. Each filter system comes with below minimum three-step process of water purification.

**Step1-Reduces Fluoride and Heavy Metals:**

The proprietary filter media reduces the Fluoride and heavy metals such as Arsenic and Lead through adsorption and ion exchange process.

**Step2-Removes Chemicals, Bad Taste Odor and color:**

Activated carbon is used to adsorb chemical contaminants of light molecular weight such as chlorinated compounds, organic compounds and radon.

**Step3-Destroys Microorganisms:**

100% of the filtered water is exposed to disinfecting ultraviolet light, which attacks viruses and bacteria by destroying the RNA and DNA complex of these organisms.

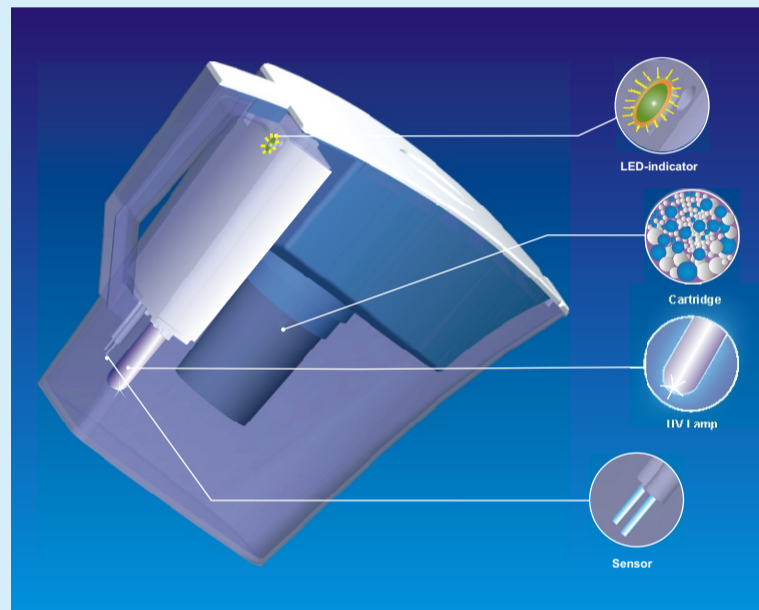

**Specifications**

Filter capacity	2.5 liters (portable)
Filter service flow	0.5 liter/min
Filter life	6 Months (1500liters)
Inlet pressure (Min)	None (Gravity Flow)
Max filtered water temp	38 Deg C
Min Filtered water temp	0 Deg C
UV lamp	Yes
Power consumption	Battery (rechargeable)
Weight	4.5 Kg (Max)

**Made for India**

**Micro processor monitors the water quality for you**

Reasons why to Choose SteriPure :

- Completely inactivates Bacteria and viruses at any point of time
- UV sterilizes the water frequently to Prevent bacteria re-growth.
- Microprocessor based system with LED indication (Electronic eye).
- Completely Re-Protects from Giardiasis
- No Chemicals required to purify water
- Removes the unwanted chemicals including chlorine
- Fast / Constant Filtration rate
- Water free from organic impurities.
- Running water is not required
- Sleek and compact size
- Provides water with exceptional clarity and taste
- Inbuilt Electronic Monitor System for life and capacity
- Reduces Pesticides
- Completely removes odor and color
- No Maintenance Cost
- Excellent Microprocessor based Control System
- No continuous electric power is required.
